

## **Article: 273286**

### **Title: How to print red copy of W-2s?**

**This article applies to:** Sage MIP Fund Accounting, v9.0 and higher.

#### **Question**

How do you print the red copy of W-2s to send to the Social Security Administration?

#### **Answer**

Pursuant to RevProc 2007-43, you are not required to file a "red" copy of the Form W-2, and you may file an acceptable substitute. Sage MIP Fund Accounting with Aatrix ® prints an acceptable substitute on plain paper. Sage MIP Fund Accounting does not have (and does not need) the ability to print a red ink copy of tax forms.

Refer to Knowledgebase Article 263916 for more information on printing W-2s. Or refer to the "Related Articles" section on the right hand side of this screen and click on the "Info – Tax Forms and eFiling by Aatrix ®" link.
